MORWENA'S CHALLENGING DAY

CHRIS ALLISS

After months living as a
rather ugly caterpillar

A vibrant, stylized illustration of a garden. In the foreground, a brown, segmented chrysalis is attached to a green plant with orange flowers. The garden features a white picket fence, various green bushes and flowers in shades of pink, purple, and orange, and a winding path. The background shows a clear blue sky and more trees and foliage.

And several more as an
even uglier chrysalis

Morwena emerged into the bright summer's
day as a very beautiful butterfly

For hours she fluttered around the garden exploring the bushes and flowers

Until, filled suddenly with the
spirit of adventure...

She decided to explore the garden on the opposite side of the street.

Morwena was unaware of
the very large lorry careering
down the road

Until with a whoosh she was taken up in the rushing air and hurled violently against the unforgiving windscreen

She fell battered and broken onto the
filthy sticky tarmac.

And was - without question - quite dead.
